The Street Committee reported as follows:

Gentlemen—Your committee on Streets and Highways begs leave to report as follows:

It recommends the granting of the petition for a sewer on the east side of Telegraph avenue, between Stuart and Oregon street, and that the Resolution of Intention for the same be prepared by the Engineer.

It recommends that the petition of M. Murphy for permission to construct by private contract a sewer on Stuart street be granted subject to the usual restriction.

It recommends the construction of the sidewalk on Carlton street between Ellsworth street and Telegraph avenue with the necessary crosswalks.

As the proceedings already taken for the walk have been criticized as illegal or at best questionable your committee recommends that proceedings be rescinded and a new resolution of intention for the work be adopted.

In the matter of letting M. Murphy lay a sewer by private contract, Trustee Cripps stated that he was opposed allowing work to be done by private contract as the work was not as well done as when it is being done by the city and he hoped that it would not be allowed any longer.

The Fire and Water Committee reported that the hose and hose carts recently ordered were being manufactured and they asked for further time, simply reporting progress.

The Electric Light Committee made the following report:

Gentlemen—Your Committee on Electric Lights beg leave to report as follows: We beg leave to recommend that the three lights on the tower, corner of Durant avenue and Broderick streets, be distributed as follows:

One light corner Durant avenue and Broderick street.

One light northwest corner of Bancroft way and College avenue.

One light on Alston way, opposite Chapel street.

That the light on corner of Bancroft way and Piedmont way be removed to Channing way and Piedmont way.

That the light on Piedmont way and Dwight way be removed to Waring street and Dwight way.

That the light on the corner of Channing way and Ellsworth street be removed to the corner of Channing way and Dana street.

That the light on Bancroft way and Sixth street be removed to Bancroft way and Seventh street.

C. Hoff, Committee.

President Richards stated that there was money enough on hand to carry the Board through the next year and that at the end of the year the Board would be better off financially than it was at the close of last fiscal year.

President Richards reported that when the former President Reuben Rickard went to Australia he was accompanied by his brother Alfred Rickard, of Denver. Shortly after Reuben Rickard arrived there he was stricken by death and a few days ago Mr. Rickard received information that Alfred Rickard had died in Australia.

The Town Attorney reported in reference to ordinances that conflicted with other ordinances, and explained what sections should be eliminated. The principal reference was made to the connection with sewers and the breaking up of the streets, and he recommended certain amendments. The report of Town Attorney was referred to the Street Committee, in conjunction with the Street Superintendent, to report at the next meeting.

In the matter of opening Delaware street, Mr. Heywood was willing to deed it to the town, if a wharf was built and maintained as a wharf, and the Town Attorney was unwilling to agree to that proposition. He thought, however, that there would be no trouble in getting the deed.

In the matter of the opening of Haste street, the Attorney asked until the next meeting in order to make his report.

The Town Clerk made his report as follows:

A communication was received from the Street Superintendent and Engineer stating that in the matter of the opening of Sixth street they desired information as follows:

Gentlemen—At your last meeting your Superintendent of Streets was ordered to prepare a resolution of intention for the opening and extending of Sixth street. Before such resolution can be prepared I would like to be advised upon the following points. Has the town of Berkeley any vested right in the land proposed to be taken for such opening, through the land owned by Partridge and Clark? If this town has, then it should not be included in the resolution. On this point your Engineer and Superintendent of Streets wish to be advised, and would ask that a search of the land be made. As you will see by reference to the map the opening of Sixth street ends on Green street. Would this be a legal opening?

The Attorney advised that a search of title be made. The matter was referred to Trustees Durrell and Hoff, and the Engineer to enquire into the matter from the property owners.

In the matter of the suit that was commenced against the town by the Oakland Paving Co. President Richards stated that the land assessed was originally against the Railroad Company, but that afterwards the Railroad Company deeded the land to the town. The matter was referred to Trustee Jones and Attorney Hayne.

The application of a license for a saloon by Herman Peters was referred to the License Committee.

In the matter of the protest against the street work on Prince street, the matter went over for another week.

In the matter of grading and curbing Alcatraz avenue a protest was made by certain property owners who thought that the work was not necessary. The protest represented 1134 feet.

F. C. Roberts, traveling correspondent of the San Francisco Evening Post was a visitor to the Gazette office this afternoon.

Adulterated Coffee.

Some time ago there was printed in the columns of the Gazette an ordinance making it a misdemeanor to sell or give away impure food within the limits of Berkeley, as it was known that considerable food of this kind was being sold in Berkeley by parties from Oakland and San Francisco.

This morning Officer Rawson noticed a couple of young men going from house to house peddling wares of some kind, so he thought that he would ascertain whether they had a license or not.

When he approached them they were busily engaged in trying to convince a lady that the article they had for sale was first class coffee. Mr. Rawson without taking part in the conversation asked the young men whether they had a license, and upon being informed in the negative at once placed them under arrest and took them before Justice Lord where one of them, who claimed to be the owner of the outfit, pleaded guilty and was fined \$10.

He telephoned at once to his employer, the Enterprise Mills in San Francisco, and that gentleman informed the Court that he would come over to Berkeley at once and pay the fine. In the meantime the boy got tired of waiting, and paid the fine himself.

Before the fine was paid, however, Officer Rawson investigated the coffee that the young man had in stock and found that it did not have the slightest semblance to coffee. He thereupon telephoned to the Health Officer, who arrived, shortly afterwards, and took some of the coffee which he analyzed and found to be a very poor quality of chicory.

It was then determined to hold the young men on the charge of violating the pure food ordinance, but when the Health Officer went to draw up the complaint that, although the ordinance had been passed to print it had not yet been placed upon the statute books.

The Board of Trustees, and, consequently, had not yet become a law. There was no other alternative but to turn the young men loose, as they had paid their fine for peddling without a license. They lost no time in whipping up their horse and getting out of Berkeley, with the information to the officer that the next time they came to Berkeley they would not only have a license, but they would have coffee, instead of an adulteration.

Otto A. Putzker was elected captain of the Crescent wheelmen at their last meeting. He is making arrangements for a road race on San Pablo avenue, and also a moonlight picnic run. The picnic run became very popular last year, and will be made so the coming season.

Robt. S. Creelmann, the club's musician, is working hard to form a string band. He has just purchased a fine banjo, and can be heard playing when ever he has the time. Bob is alright and we wish him success, as a band would be a great addition to the social life of club life.

The Death Sentence.

Judge Ogden yesterday pronounced the death sentence upon Benjamin L. Hill, the wife murderer. The effect was somewhat lost, because the action was a formally hedged about by numerous motions based on the appeal that will be taken to the Supreme Court by Attorney Bradley. The date for the execution was not fixed and a stay was granted for sixty days to prevent Hill's removal to San Quentin pending the preparations of the papers on appeal. Attorney Bradley moved for a certificate of probable cause, but Judge Ogden denied the motion. Hill is now to be allowed to remain at the County Jail instead of being transferred to the State penitentiary while his case is in the Supreme Court.

May Expose Mind Reading.

A petition is being circulated among the students to request Professor Putzker to expose the mind-reading feats performed by Anna Eva Fay. Professor Putzker last week, during one of his lectures, made the statement that he could explain to the complete satisfaction of everybody just how Anna Eva Fay performed her tricks. The petition has many signatures.

NOT A SENSATION.

Death Run Down.

Yesterday a party called upon the Coroner, and desired him to bury the body of a baby boy that had died in birth that morning.

The Coroner asked who the physician in attendance was, and was informed that there was no physician in attendance, but that a midwife was registered she could not sign a death certificate.

The coroner then investigated the matter and found that the dead infant was the son of Mr. and Mrs. David Eldridge, of West Berkeley, and that the midwife was Mrs. Lizzie Mason. The coroner, finding that his death was due to natural cause, signed a certificate of death, and the child was buried.

These are the facts in the case, although there are rumors of all kinds floating about, which kept reporters on the jump tracing down.

The San Francisco Examiner in its issue of this morning, published a cut of the proposed elevated electric road from La Loma Park to Goat Island, with the descriptive matter as recently published in the GAZETTE.

The West Berkeley Progressive Club will meet this evening in regular session and business of the utmost importance will come before the meeting. It is hoped that the attendance will be very large.

April is evidently going to continue a stormy month until the end, as rain poured down last night and this afternoon.

Anyone who has not read one of the million of detective stories which have been published for years, will find a new one in the story of Carey B. Birch, cash register of the West Chicago Street Railroad Company, June 23, 1895, and condemned to death. Julius Mannow, who was put upon trial along with Windrath, confessed that he and Windrath had been in the killing. The crime was committed during an attempt to rob the office of the car company.

Chicago, April 20.—S. H. Hibben of Cal., president of the Arizona Sand stone Co., was released from Bridewell Saturday afternoon by order of Mayor Swift.

In charge by Mrs. Hofheier, his niece, residing in Chicago. She denied that Mrs. Hibben left her husband when she found he was in Bridewell.

Two San Francisco Residents Last Night.

SHUFFLED OFF THIS MORTAL COIL BY HANGING.

Rev. George E. Hatch of Berkeley.

Convinced of Dr. Brown's Guilt.

Hanged Themselves.

San Francisco, April 21.—Two desperate San Francisco residents, weary of the struggle for existence, last night decided to end their troubles by committing suicide.

In each case hanging was the method chosen and two bodies are now lying side by side in their black wooden coffins at the Morgue.

Ernest Weber, a butcher, aged 65 years, who lived with his family at 1424 Howard street, and Christopher Helm, a laborer, whose home had been at the German Hotel 560 Howard street, are the names of the two men who abruptly ended their lives.

Weber had met with business troubles, and Helm had grown despondent from long continued illness and inability to secure work. Impending poverty, as a consequence, also, probably gave strength to the desire for self destruction.

Last night Weber failed to return to his home, and his wife was somewhat alarmed. It was not until this morning, however, that the truth was made known to her, and being totally unprepared for such a calamity Mrs. Weber is prostrated from the shock.

Brown Case.

San Francisco, April 21.—The Bay Conference came together in special session at the Market Street Church, Oakland, this morning.

Rev. J. A. Cruzan, of San Francisco, was moderator, Rev. Hatch, of Berkeley, Registrar, and Mr. Condon, of Oakland, Scribe.

The delegates present were those who attended last Tuesday's session. Dr. Brown made an address, and considerable discussion followed, without action being taken.

Torturing Armenians.

Constantinople, April 21.—Authentic information received here shows that the Turkish prison at Marash is crowded with Armenians, who are subjected to horrible tortures. A renewal of massacres is feared. The Redifs and Bashi Bazouks quartered at Zeitoun are devastating the lands of Armenians. The police have recommenced arresting Armenians.

It is the intention of the Association to work for the interest of every section of Alameda county and advance it as far as possible.

There is a new manufactory that de-

sires to locate in Berkeley, the Board

terveys and "do all" in its power to

secure the manufactory. Again as is

the case at the present time West

Berkeley wants the electric road ex-

tended to West Berkeley. Instead of

working alone and unaided the Board

of Trade will devote its energies toward

accomplishing the desired end. The

same applies to other sections of the

county for any of their needs. It is

stead of each section of the county

working for it and pulling against

will "push together" and, as in union

there is strength, the result will soon

be made manifest.

In Los Angeles there is a Board of

Trade organized upon the same lines

which is now proposed to establish the

Oakland Board of Trade, and it is

building up in a similar manner.

The same thing can be done in Alameda county by all pulling together.

and the meeting tonight will be the

first step toward making a greater

and more prosperous county of Alameda.

and the time is not far distant, when

there will not be a business man in the

whole county, who will think of con-

ducting a business of any kind unless

he is a member of the Board of Trade.

THE CONVENTION.

The so called Straight Republicans

held their convention yesterday in Ger-

mania Hall, Oakland. It was not

largely attended and attracted no at-

tention except from those who were

members of it, the same politicians

who have heretofore disgraced the Re-

publican party in this county.

In the convention yesterday the fine

Italian band of Geo. C. Parker could

be seen in every move that was made.

He was the "Chairman of the Commi-

tee on Resolutions, and in every line

of the resolution which was presented

giving the reasons why the convention

was called, and even between the lines,

it was all George. Indeed, a man who

has been honored by the "Republican

party, which he thought good enough

to send him to the State-Senate, but

which was not good enough in his

estimation, to elect a mayor of Oak-

land, so he got up a Nonpartisan party

and foisted himself into office as mayor

Even after that he forced himself upon

the last Republican County Conven-

tion, and when he thought a candidate

whom he desired to nominate was go-

ing to be defeated, arose in that con-

vention and threatened that himself

and the voters of the Seventh Ward

would bolt the ticket, and yet he com-

plains of losses.

This being a presidential year his

desire to hold office again possessed

him, and he concluded that he wanted

to go to St. Louis as a delegate to the

National Convention. He found that

from the rank and file of the party

there was opposition to him, so he

again calls upon his friends and allies,

the Nonpartisans and some hungry

Democrats and yesterday's convention

was the result.

This time, however, we think that

he has overreached himself, and when

he and those he selected yesterday to

accompany him arrive at Sacramento,

they will have to cool their heels out-

side of the Convention hall, and then

his political career will have ended
